Heritage Area Name:  Mormon Pioneer National Heritage Area

Purpose
The information collected through this form will be used by the National Park Service (NPS), National Heritage Areas (NHA) Program Office and regional program offices to see each heritage area management or coordinating entity’s (coordinating entity) progress on management plan implementation. The progress measures outlined in the categories below capture information about the diverse heritage area activities and approaches to these activities (process measures), direct products or services offered (output measures), and the results of the products or services (outcome measures).

The NPS will use the responses to the questions reported here in annual program reports and publications and to inform individual heritage area evaluations.

Reporting Instructions
The progress measures in this form are grouped under eight categories, capturing the diverse work of national heritage area coordinating entities throughout the country. We recognize that each heritage area and coordinating entity is unique. Therefore, not all of the categories or measures presented below will apply.

- The data reported here shall reflect the work that the coordinating entity led, funded or partnered with others to complete this year.

- **Report all work that the coordinating entity was involved in to implement the national heritage area management plan. Include work supported by Heritage Partnership Program (HPP) funding and other heritage area funding sources.**

- Report data for the same 12-month cycle (calendar, federal, and fiscal) that you reported last year.

- Measures under categories 2 – 7 are sequenced to capture work in progress, work that is completed, and the outcomes of completed work.

- Follow the specific instructions for each category and measure. Please be consistent in how you categorize your work. When deciding how to categorize a specific project or program, it may be helpful to consider the project or program purpose in relation to your NHA goals.

- If you are implementing or funding multicomponent projects, please count each component separately. *For example, you might be working on a project that involves the preservation of a building or site, site interpretation, and an event. Using this example, each component would be counted as a separate project under the preservation, education and interpretation, and promotion categories.* If it is not possible to separate project components, please report on the project under the category that is most appropriate given the funding amount.

The Sanpete County Fairgrounds project has been an extensive effort to rejuvenate the facilities for the time-honored annual county fair, which serves to unite a widely-dispersed county population with 13
municipalities and two school districts, as well as inject money into the local economy through tourism from
the fair itself and various other events held on the fairgrounds.

The federal funding of $30,000 was leveraged into an additional $130,000 from various foundations and
hundreds of local donations. Resourceful renovation and fundraising efforts by the Sanpete County Fair
Board were able to effectively use the money to transform a dilapidating facility into one well-equipped to
handle the large attendance safely and appropriately.

The fairgrounds also serve to augment agri-tourism functions held at the Cleone Peterson Eccles Equestrian
Center in the nearby MPNHA chair-community, Mt. Pleasant City and promote multiple annual local events
that would be prohibitive in a smaller, less well-equipped facility.

The impact of the grants and local fundraising efforts made a large positive impact on the fairgrounds and
local culture, which has strong connections to farming and livestock—which remain a strong focus for events
held on the fairgrounds, including the fair itself.

Generations of Sanpete County residents, and the tourists that visit the fair, have been assured of many more
years of fun and family-friendly events thanks to the funds raised to renovate the fairgrounds.
