House Committee on Natural Resources  
1324 Longworth House Office Building  
Washington, DC 20515

Dear Chairman Raul Grijalva and Ranking Member Rob Bishop:

I am writing in both my capacity as a private citizen and as Chairman of the Panoramaland Resources, Conservation and Development Committee (RC&D). Our Committee's area of prime focus is Utah's Six-County area, consisting of Sanpete, Sevier, Wayne, Piute and Garfield counties.

It has been a great delight for me to witness the great work being performed by the Mormon Pioneer National Heritage Highway Committee (MPNHA) as I travel the highways and byways of Central and Southern Utah, from the restoration of the historic Butch Cassidy home near Circleville, UT, the Pioneer Memorial Park at Manti, UT, the rehabilitation and signage at the Monroe Hot Springs, a resource considered sacred by our local Paiute bands, the entry monument at Mt. Pleasant, UT, and numerous other monuments and information points all along the Highway 89 corridor. Every time I pass one of their small highway placard signs attached to reflector posts along the way, I smile.

The MPNHA has been a great blessing to our area and a visible reminder that federal dollars can be spent on things that have a direct, positive impact on many things that matter to our lives in rural Utah. I urge you to continue the good work of this program by lending your strong support to H.R. 1049, the National Heritage Act of 2019, introduced by Representative Paul Tonko and Representative David McKinley.

Regards,

Steven J. Clark, author  
Chairman, Panoramaland RC&D
